We price "Per 10," "Per 100," and "Per 1000." To obtain the lowest published price on Naked Root deciduous stock your order must consist of at least fifty plants and not less than ten of a variety or grade.

Orders for less than ten of a variety or grade will be invoiced at an ADVANCE of 20% OVER THE TEN RATE, REGARDLESS OF THE SIZE OF THE ORDER, except Conifers and Broadleaved Evergreens where 5 plants at the 10 rate and 25 plants at the 100 rate are available.

ALL PRICES ARE SUBJECT TO MARKET CHANGES

GRADES

We grade liberally. All shrubs of specified sizes are well furnished and well rooted. Culls are as rigidly excluded from the lightest grades listed as from the heaviest stock. Our rule is, "WHEN IN DOUBT, PUT IT IN THE LOWER GRADE." Detailed information as to method of grading Hedge Plants and Roses is given under such heads.

CLAIMS

All claims must be made IMMEDIATELY AFTER RECEIPT OF STOCK.

LIABILITY and NON-WARRANTY

All quotations are for immediate acceptance and subject to stock being sold. All bookings are without liability to us should injury befall stock from frost, hail, fire, or other causes beyond our control, and subject to the standard form Non-Warranty Clause which reads: "We give no warranty, express or implied, as to description, productiveness, or any other matter, of any nursery stock, seed or bulbs we sell."

COMBINING CAR AND TRUCK LOADS

We can often work out combination shipments, rail or truck, to our customers advantage. Refrigerated and Heated Trucks are available, on ample notice, to many points giving quick and safe service regardless of weather conditions.

PACKING CHARGES

Boxes and Bales will be charged at cost of labor and materials. This item will average around 5% of invoice. No charge for packing Car or Truck loads.

LATE SPRING PLANTING

With our cold storage facilities, we can now serve you until about June 1st with bare root stock. We closed down our coolers on June 1, 1955. On that day, we took out and planted as a test, Lonicera Fragrantissima, Symphoricarpos Chenaulti, Euonymus Patens, Forsythia, Buddleia and Flowering Almond all bare root. This stock grew off vigorously. Note also the listing of CONTAINER GROWN items, see page 48, which of course are available for planting the year around.

REFERENCES

As to our standing and responsibility we refer to any bank or business house in Huntsville, Alabama, the Commercial Agencies, and the leading nurserymen of the United States.

Two-Year Field Grown

All of these Conifers are grown from cuttings and transplanted in the field at least twice. This field grown stock is not to be confused with bed or frame-growing stock. They have grown in our full 42" rows where they have been under a state of high cultivation, which has developed character. They will be puddled in mud as dug and the roots carefully packed in Sphagnum Moss in ventilated cases for shipment.

Potted stock will be shipped in paper pots of the size indicated.
